SAFETY PRECAUTIONS

Please take time to read the important instructions in this booklet. Observing the step-by-step instructions and complying with the warnings will be your personal guarantee to greater satisfaction over a long period of time.

SAFETY PRECAUTIONS

- Avoid subjecting this high precision GAME PAK to extreme temperature variances. Store at room temperature.
- Do avoid touching terminal connectors. Keep clean by inserting GAME PAK in protective storage case.
- Never attempt to disassemble your GAME PAK.
- Use of thinners, solvents, benzene, alcohol and other strong cleaning agents can damage the GAME PAK.
- For best results, play the game a distance away from your television set.
- Pause for 10-20 minutes after 2 hours or more of continuous game playing. This will extend the performance of your GAME PAK.

Nintendo recommends against using a rear projection television with your NES as image retention on the screen may occur.

HELPFUL GAME-PLAYING HINTS

A thermometer-shaped **MEGA MAN** "Energy Meter" appearing upper left in game-playing scenes serves to monitor **MEGA MAN**'s power levels. If and when **MEGA MAN** is bodily struck or hit with enemy projectiles, degrees of energy are lost.

Conversely, the player's **MEGA MAN** power is boosted by winning energy capsules.

A Magnet Beam will appear during the middle of the Elecman stage. Snare the Magnet Beam to create steps for climbing upward.

Magnet Beam Becomes a step for player

The Iceman stage offers real challenge when square-shaped steps quickly appear and disappear on the backdrop. When **MEGA MAN**'s jumps and leaps are timed perfectly, he's able to scale walls and press onward toward defeating empire leader Iceman.

Each time **MEGA MAN** successfully out-duels each of his six foes, he acquires new firepower he will need as **MEGA MAN** enters final stage seven to defeat evil Dr. Wily.

Ahl **MEGA MAN** must use the newly-acquired armament wisely, for he can use them just once while engaged in battle with Dr. Wily.

THE MEGA MAN STORY

It's **MEGA MAN** versus the powerful leaders and fighting forces of Monsteropolis — that strange multi-faceted land of robot-like Humanoids.

Brilliant scientist Dr. Wright conceived the construction of fully-operational human-like experimental robots to perform specific everyday duties. Dr. Wright, and his assistant Dr. Wily, encouraged with their very first near-human robot — **MEGA MAN** — proceeded to develop six additional Humanoids, all programmed to perform prescribed rituals;

Cutman: Designed to function as a lumberjack. Powerful saw-toothed scissor-like instrument protrudes from head, capable of gnawing through giant forest timbers.

Gutsman: A buildozing character capable of lifting and transporting huge boulders.

Iceman: Impervious to chilling sub-zero temperatures, capable of humanlike performances under extreme climatic conditions.

Bombman: A real "blaster" as a heavy duty laborer who uses intensely powerful explosives to clear lands for Dr. Wright's construction projects.

Fireman: Melts and molds metals with flamethrowing torch flaring from atop his head.

Electran: Dr. Wright's electrifying creation planned for conducting electrical operations even supervising nuclear power plants.

But, with the exception of **MEGA MAN**, all of Dr. Wright's near-human robot experimentation went awry. Assistant Dr. Wily turned disloyal, re-programming Dr. Wright's Humanoids, now bent on destroying opposition so Dr. Wily could control the world and its resources.

Resisting re-programming, **MEGA MAN** is chosen the defender of the universe and its inhabitants. **MEGA MAN** dares to single-handedly penetrate seven separate empires of Monsteropolis, eliminating the leaders and followers of these sovereignties.

Get ready for some very exciting challenges!
